PROJECT REPORT TEMPLATE TEAM ID-NM2023TMID04417

1.INTRODUCTION:
1.1PROJECT OVERVIEW:

    Salseforce Vehicle Management System using Salesforce Vehicle Management System is software which is helpful for bus operators, who wants to operate many bus trips in a day. Vehicle Management System is a windows application written for 32-bit Windows operating systems which focused in the area of adding, editing and deleting the passengers, staff and the bus routes.

We Created
 Vehicle Management app

Objects and fields for APP

2.PROJECT DEFINATION AND DESIGH THINKING:

2.1 EMPATHY MAP:

Done

**Build empathy**
The information you add here should be representative of the observations and research you've done about your users.

Says
What have we heard them say?
What can we imagine them saying?

Thinks
What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

Give them a name and a portrait to empathize with your persona.

Does
What behavior have we observed?
What can we imagine them doing?

Feels
What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?

2.2 IDEATION AND BRAINSTROMING MAP:

ADVANDAGES AND DISADVANDAGES:

Salesforce and good customer service comes hand in hand.
The data base that salesforce uses is also helpful in digitizing and organizing company sales records.
Users can also loss a personal touch as in the process of automation.
Salesforce contains barriers to adoption.

6.APPLICATIONS:

Minimize administration efforts.
Eliminating missed communications.
Digitize how our events are run.
Access detailed reports and analytics.

7.FUTURE SCOPE:

Hosting events can redesign the structure of a city by facilitating economic growth, employment, opportunities, urban development, and promoting indigenous culture and heritage.

8.CONCLUTION:

To created new object and fields.
Vehicle management system is user friendly and costeffective system, it is customised with activities related to vehicle management life-cycle.
